

Early Detection Matters. Screening Saves Lives.

October is Breast Cancer Awareness Month.

About one in eight North Dakota women will get breast cancer during their lifetime. Breast cancer remains the second leading cause of cancer deaths for women in the state.

Talk with your healthcare provider about your risk factors for breast cancer, when to start screening and how often to screen.

Women's Way may provide a way to pay for these screenings, visit the *Women's Way* website (www.ndhealth.gov/womensway) or call:

701-328-2367 or 800-44 WOMEN (800-449-6636)
