

**Make a Women's Way connection.
Help save a life.**

Diane connected with Women's Way a decade ago and continues to rely on Women's Way for mammograms and Pap tests.

"It's been very good for me. It's really an important thing for women to go and be checked."

— Diane Schill, rural Hannah,
N.D. Women's Way Enrollee

Do you know a woman who is
in need of a mammogram or Pap test
but can't afford it?

Women's Way is a breast and cervical
cancer early detection program, and
may provide a way to pay.

Many North Dakota women are
eligible and YOU can help connect
them to Women's Way.

Encourage a woman you know
to call Women's Way at
800-280-5512 or 701-328-3398.

You might just save her life.
